

HORSEMAN

4 Section Carbon Fiber Tripod with Pan Head System

HM-TPHD-02

Made in Japan

Horseman offers professional photographers an original tripod with a new concept! The 36mm diameter thick carbon-pipe legs realize the perfect stability, necessary for the high-end digital photography. Light weight and excellent portability derived from characteristics of carbon and 4 section stowing legs ensure a comfortable operability and support a camera system securely up to 10kg.
